I met you at a party you asked me for a dance  
Straight from the page of a fairy-tale romance  
Drinking champagne you were chasing it with beer  
Round the stroke of midnight everything got weird  
The mask came off and the truth appeared

## **Chorus**

Me & Cinderella seen right through it all  
You aint no prince and this aint no ball  
You think you've got em fooled but let me tell you something  
That chariot you're driving aint nothing but a pumpkin  
Forget about your slipper made out of glass  
These boots are made for walking and they'll kick your.....  
You wanna be my fella but me & Cinderella gonna pass

You say you've got a mansion a butler and a yacht  
I say you're everything I've dreamed of, not  
You're gonna take me to Heaven and beyond  
Flashing that cash like you've got it going on  
Well watch what happens when I wave my wand

## **Chorus**

## **Bridge**

Leave me along go back to that log  
There aint no way I'm gonna kiss no frog

## **Chorus**

You wanna be my fella but me and Cinderella gonna pass

The postman's walking by the milkman  
Talking to the young child running from the housewife  
Thinking bout the weekend

The waitress picking up her paycheck  
Running to the bank man polishing his golf clubs  
Thinking bout the weekend  
Everybody's counting on Friday to take em away

## **Chorus**

Ready for the weekend with an ice-cold beer  
And good times crank up the atmosphere  
Kicking up our heals party the night away  
Everybody's waiting for the weekend

On Monday it's back into the office  
Running to a meeting trying to make a deadline  
Thinking bout the weekend

The emails pile up the cell phone won't shut up  
The voice mail's full again  
Man I can't wait until the weekend  
Everybody's counting on Friday to take em away

## **Chorus**

## **Bridge**

Radio says the weather's gonna be sunshine  
Bring it on, we're here for a good time

## **Chorus**

Ready for the weekend with an ice-cold beer  
And good times crank up the atmosphere  
Kicking up our heals party the night away  
Come Friday I'm turning off that phone  
And Saturday crank up the Rolling Stones  
Sunday morning I'm sleeping in  
Everybody's waiting for the weekend  
I can't wait until the weekend

# *Kiss Me*

Come here and kiss me  
Reach in and touch my soul  
Let my lips carry you  
To a paradise you've never known  
Tonight I'm needing you  
Kiss me

Come and lay down beside me  
Run your fingers through my hair  
Let's get lost in eternity  
Feel it linger in the air  
Tonight I'm needing you  
More than I ever knew  
Kiss me

## **Chorus**

You can be the gentle breeze blowing across my back  
Let's get lost in the garden of Eden and never look back  
Kiss me

Break

## **Chorus**

You can be the gentle breeze blowing across my back  
Let's get lost in the garden of Eden and never look back  
Kiss me  
Kiss me  
Kiss me

# *Life When You View It From Here*

I thought I had seen everything there was to see  
Life came along proving me wrong making a fool out of me  
Convinced I was much more important than each passer by  
Truth of it is learning to live means letting go of your pride  
So I try one new thing each day  
Let faith lead the way

## **Chorus**

In this life  
The best thing is love  
That's what we're all made of  
It's suddenly perfectly clear  
When you view it from here

Vangouh he threw paint on canvas like no one else could  
We didn't care while he was here sad he was misunderstood  
Yeah and Lincoln he rallied for freedom saw a much better day  
Times may have changed it's still the same perception stands in our way  
So I take time to pray every day  
Let faith lead the way

## **Chorus**

In this life  
The best thing is love  
That's what we're all made of  
It's suddenly perfectly clear  
In this life  
The best thing is love  
That's what we're all made of  
It's suddenly perfectly clear  
Yeah everything's crystal clear  
When you view it from here

# *Let the Sun Back In*

Take these blinds from my eyes  
So I can learn to see again  
Oh please let the sun back in

Take this weight off of my heart  
So I can learn to love again  
Oh please let the sun back in

## **Chorus**

Cause I've been broken  
For far too long  
And I'm tired so tired  
Of being strong

Take this doubt out of my head  
So I can find my faith again  
Oh please let the sun back in

## **Break**

## **Chorus**

I've been broken  
For far too long  
And I'm tired so tired  
Of being strong

So take this doubt out of my head  
So I can find my faith again  
Oh please let the sun back in  
Oh please let the sun back in

# *In Tears*

You're the one who's there when he walked out on me  
You did all you could to help me heal  
Just takes time they say  
But it hasn't been that way  
Sometimes you must wonder  
If it's all been a mistake

## **Chorus**

In tears I've got you in tears  
Even after all of these years  
I don't want to but I've got you in tears  
Though I never mean to  
It's killing me to see what I'm doing to you  
I don't want to but I've got you in tears

Tonight you caught me looking at old photographs  
I turned to you and called you by his name  
You didn't say a word  
Acted like you never heard  
Sometimes you must wonder  
If it's ever gonna change

## **Chorus**

In tears I've got you in tears  
Even after all of these years  
I don't want to but I've got you in tears

## **Break**

Sometimes I think the kindest thing to do would be to leave  
But then I'd just be leaving you the way that he left me

## **Chorus**

In tears I've got you in tears  
Even after all of these years  
I don't want to but I've got you in tears  
No I don't want to but I've got you in tears

# *Juliet*

Seems like black magic just when I've given up  
When lonely was plain lonely and half empty was the cup  
I forgot the unexpected the joy of a surprise  
Then I shook your hand like any other and looked into your eyes

## **Chorus**

I said I don't care where we go  
The spells been cast I've changed so fast  
To someone I don't know  
I don't care whether this thing will grow  
Call me Juliet tonight and come here Romeo

Just a wedding party wasn't looking for romance  
Didn't make it past the cocktails I didn't last through the first dance  
Well blame it on the full moon or on the number nine  
Or the color of the sky your horoscope my sign

## **Chorus**

I said I don't care where we go  
The spells been cast I've changed so fast  
To someone I don't know  
I don't care whether this thing will grow  
Call me Juliet tonight and come here Romeo

I said I needed nothing, nothing and no one  
Now that lie has left my lips and I'm ready for some fun  
Well wrap your arms around me tango me to the floor  
Kiss me in the moonlight or what's a full moon for

## **Chorus**

I said I don't care where we go  
The spells been cast I've changed so fast  
To someone I don't know  
I don't care whether this thing will grow  
Call me Juliet tonight and come here Romeo  
Call me Juliet tonight and come here Romeo

# *Stuck to Each Other*

Would of been easy, we had enough questions and doubts  
To give up on our love, pull the plug and let the water out  
But we held on, Houdini wouldn't last that long

We didn't have money but we always paid the bills  
Climbed a few mountains to find out they were only hills  
We were strong, Wonder Woman and King Kong

## **Chorus**

We almost tossed us away but we didn't  
We got so dam good at hanging on  
Like a child who clings to his mother  
Like flies on butter, we're stuck to each other

It got a little crazy, yeah we drove each other mad  
There was no maybe, either it was good or it was bad  
But we held on like a willow in a windstorm

## **Chorus**

We almost tossed us away but we didn't  
We got so dam good at hanging on  
Like a child who clings to their mother  
Like flies on butter, we're stuck to each other

## **Bridge**

Like a fire without a flame  
Like a street without a name  
Cinderella with no prince to save the day

We held on, Wonder Woman and King Kong  
Yeah we belong, a melody in a sweet song

## **Chorus**

Like dust on clutter, stuck to each other.

# *Beautifully Simple*

A rainy autumn night  
A snowy afternoon  
I summer morning drive  
A flower in full bloom  
I'm a sentimental fool  
With caution I reveal  
Each and every day wanna find a way to say  
How you make me feel

## **Chorus**

You are my world and more  
Slowing things down for this clown to help me enjoy  
More of the beautifully simple simply feels better  
When you're with me

Dandy lion wine  
Sleeping in till noon  
Berries on the vine  
Howling at the moon  
I leaned a fundamental rule  
To let myself believe  
I'm glad you lead the way and so I want to say  
What you mean to me

## **Chorus**

You are my world and more  
Slowing things down for this clown to help me enjoy  
More of the beautifully simple simply feels better  
When you're with me  
You are my world and more  
Slowing things down for this clown to help me enjoy  
More of the beautifully simple simply feels better  
When you're with me  
You're everything

# *Happy Girl*

All I want is a warning  
When my time here is through  
So I can mend all my fences let down my defenses and say my love yours  
And I'll leave this world  
A happy girl

I've had family to give me  
Unconditional love  
I've skipped rocks by the ocean put my own dreams in motion and all of that stuff  
I'll leave this world  
A happy girl

## **Chorus**

I want angels to wish that they could be me  
I want angels to be happy to see me

I've followed ambition had my day in the sun  
I've wrestled temptation yet remained dedicated to the one that I love  
I'll leave this world  
Not a moment too soon  
I'll leave this world  
A happy girl

# *You Can't Bring Me Down*

Sometimes I'm headstrong why is that so wrong  
If I don't see in black and white  
There's times I'm out there and times I don't care  
Whether I'm wrong or I'm right, yeah

Don't bring me roses when all you know is  
That you've been untrue  
I don't care cause I'm tired of your cold touch  
I need some new gratitude

## **Chorus**

Yeah you can't bring me down  
I've got my feet flat on the ground  
You're talking but you're wasting your time  
Cause I don't hear a sound  
You can't bring me down

Can't steal my thunder or pull me under  
You're not gonna get the best of me  
So take your freak show and don't come back tomorrow  
I need some room to breathe

## **Chorus**

## **Chorus**

You can't bring me down  
I've got my feet flat on the ground  
You're talking but you're wasting your time  
Cause I don't hear a sound  
You can't bring me down

## **Bridge**

Your love is like an anchor you had me drowning in my pain  
I'm breaking free from your chain

## **Chorus x 2**

The sun was setting in the west  
The birds were singing on every tree  
All of nature seemed inclined for a rest  
But still there was no rest for me
